

# FP508 FIRE RATED ACRYLIC SEALANT

UP TO 4 HOURS FIRE RESISTANCE

SEALING LINEAR JOINTS,  
CABLES, PIPES & DUCTS  
UL-EU-01241-CPR

FP 508 is a fire rated single component partly flexible acrylic mastic specially designed for fire sealing. The sealant expands when heated and produces an efficient seal against fire, smoke and gas. See technical data sheet and installation guide for specific information to the installation of fire seals, fire ratings and approvals. Store between 10°-30°C. Use within 18 months of manufactured date.

Warning:  
Store away from children. Avoid contact with skin and eyes.  
Do not swallow. To be kept frost free.
